MEMORANDUM FOR: Deputy to the DCI for the Intelligence  
Community

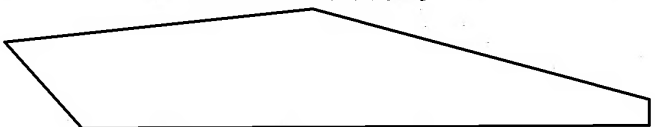

SUBJECT : Proposed DCID 1/3

1. I have no major problems with the proposed DCID. However, I have two comments that you may wish to consider. They are:

a. Paragraph 2a notes that representatives of the Army, Navy and Air Force may be given membership with the concurrence of the Director of DIA. I believe it is necessary that the military services be represented on GMAIC. The services have the analytic personnel devoted to technical intelligence on the missile and space problem. I would hate to see the day when the Director of DIA did not wish to have the services represented.

b. Paragraph 2b discusses subcommittees and ad hoc working groups. I believe it is a matter of semantics but GMAIC has traditionally been supported by standing Working Groups. These Working Groups serve GMAIC as some subcommittees serve the other USIB committees. The Working Group chairmen have always been elected by the committee with the approval of the Chairman of GMAIC. This arrangement has been quite satisfactory and I would prefer not to change it.

2. If GMAIC can continue to operate in the manner which has been successful for a number of years under the proposed DCID, I concur in the Directive.
